Be it enacted by the Legislature of the state of Utah:
Section 1. Section 63-38f-2101 is enacted to read:
Part 21. Economic Development - Government Procurement Contracts
63-38f-2101. Projects to assist companies secure new business with federal, state,
and local governments.
(1) The Legislature recognizes that:
(a) many Utah companies provide products and services which are routinely procured
by a myriad of governmental entities at all levels of government, but that attempting to
understand and comply with the numerous certification, registration, proposal, and contract
requirements associated with government procurement often raises significant barriers for
those companies with no government contracting experience;
(b) the costs associated with obtaining a government contract for products or services
often prevent most small businesses from working in the governmental procurement market;
(c) currently a majority of federal procurement opportunities are contracted to
businesses located outside of the state; and
(d) there exists a significant opportunity for Utah companies to secure new business
with federal, state, and local governments.
(2) The office, through its director, may receive and distribute legislative
appropriations and public and private grants for projects and programs that:
(a) are focused on growing Utah companies and positively impacting statewide
revenues by helping these companies secure new business with federal, state, and local
governments;
(b) provide guidance to Utah companies interested in obtaining new business with
federal, state, and local governmental entities;
(c) would provide experience, contacts, and personnel to successfully match Utah
businesses with government procurement opportunities; and
(d) include the following components:
(i) recruitment, individualized consultation, and an introduction to government
contracting;

02-08-06 3:29 PM H.B. 458 59 (ii) specialized contractor training for companies located in Utah; 60 (iii) a Utah contractor matching program for government requirements; 61 (iv) experienced proposal and bid support; and 62 (v) specialized support services.
